sitive and ambitious, and play an active role in campus life by creating or joining a club or society, becoming a mentor, or submitting ideas and projects.

Ask lots of questions too, we are here to provide answers and help you every step of the way.

Whether you need to talk about something personal, an administrative or study-related problem, or any other issue, we are on hand all year round.

We hope you have an excellent freshers' week, a rewarding year of study crowned with success and, above all, that you find everything you need to flourish in your academic and personal life!

University education consists of three degree levels: Bachelor's degree, Master's degree and PhD. The goal of this teaching system is to harmonise higher education diplomas at a European level to make it easier for students move between countries and improve understanding of diploma levels on the job market.

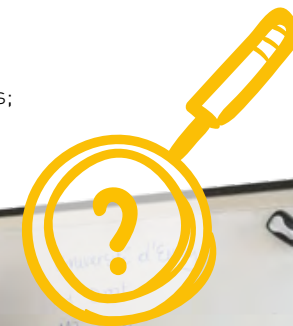

The academic year is split into semesters, and each semester is worth 30 ECTS (European Credit Transfer System) credits. ECTS credits are cumulative and transferable.

- 1 Bachelor's degree, 6 semesters validated = 180 credits;
- 2 Master's degree, 4 extra semesters validated = 300 credits;
- 3 PhD, 6 extra semesters validated = 480 credits.

If you wish to do a PhD, following a Master's degree, you should contact the university's centre for doctoral studies.
